

JOB TITLE: Environmental Staff Scientist (Field)
FLSA: NON-EXEMPT
REVISION DATE: October 26, 2021
DIVISION: CGRS: Environmental Services

REPORTS TO: Environmental Field Supervisor

POSITIONS SUMMARY:

The Environmental Staff Scientist performs testing activities associated with environmental assessment and remediation projects, sample collection, site reconnaissance and mapping, subcontractor oversight, data documentation, and care of field instrumentation. The position also includes general office tasks including compilation and filing of field notes.

PRINCIPAL ACCOUNTABILITIES:

- Sample soil, soil vapor, water, air, and groundwater. Operate tools and equipment applicable to the media being sampled.
- Documentation of field sampling data, including soil lithology, field screening observations, water quality parameters, sampling methods and procedures.
- Site reconnaissance and mapping.
- Oversee subcontractors and assure accurate implementation of work plans for tasks including drilling, monitoring well construction, excavation, remediation system installation, and closure of petroleum storage tank systems.
- Operation of remediation systems and documentation of system performance data.
- Job Site Health and Safety Officer.
- Establishing lines of communication with clients, regulators, property owners, and the public who may be present at a job site.
- Interact in a collaborative manner with Managers and Co-Workers.

JOB REQUIREMENTS:

Any combination of education and experience that would provide the required skill and knowledge for successful performance would be qualifying. Typical qualifications would be equivalent to:

EDUCATION: Bachelor's in Geology, Environmental Sciences or equivalent or High School Diploma with 5+ years of transferable experience. Course study in geology, environmental science, engineering, or equivalent areas of study could be helpful.
